RAILROAD INSTITUTES ENROLL TECHNICIANS
FOR ENGINEER TRAINING, 1951 - 1952

The Main Administration of Educational Institutions of the Ministry of Transportation USSR has announced the opening of enrollment of railroad technicians for training as railroad transport engineers.

Eligible for enrollment are railroad transport workers under 40 years of age who have completed railroad transport *tekhnikums*, and who have had at least 5 years' experience in their specialty.

Graduates of evening and correspondence divisions of railroad transport *tekhnikums* with more than 5 years' experience are eligible for enrollment, provided they apply immediately upon graduation and are able to pass the required entrance examinations.

Employees of railroads and railroad plants must send their applications through their immediate superiors to the personnel administration of the railroad *okrug*; employees of the Ministry of Transportation and enterprises and institutions directly subordinate to main administrations of the ministry must send their applications, through their immediate superiors, to the Administration for Supervisory Personnel, Main Personnel Administration of the ministry.

All applications must contain the following documents: certificate of education, autobiography, notarized copy of diploma of graduation from a *tekhnikum*, residence credentials, health record issued by a railroad medical institution, and two photographs.

All persons assigned by the Main Personnel Administration or railroad *okrug* must take examinations in subjects designated for entrants to railroad transport higher educational institutions.

The list of institutes, giving location, specialties in which the technicians will be trained, and address, follows.
